

Fremington parish hall.

The year 2022 -2023 has seen the hall reopen to groups with the end of lockdown restrictions.

The positive to this being a number of new groups using the space during the day for the youngest members of the community. In the form of Tiddly music which range from 0 to 4 years old to a variety of Zumba class. Along with Tai Chi, kick boxing and fitness class, short mat bowls and Romar Sports. Not to mention the hall has seen more use on a Sunday over this last year with Coastal Community Church services running from the hall.

The hall has secured some more funding to help with the maintenance and general running of the hall. This will help towards the cost of recent works also, which include works to the front entrance, fencing. The WiFi provided by Airband is proving to be of greater quality than before and the heaters that were installed previously have done the job.

Due to the increase in running cost gas and electric prices going up. As with household bills the hall itself has seen a sharp rise in utility bills and has increased its hire rates slightly but still remains more affordable than others in the area.

As always, any suggestions for improvements are welcome and we would welcome anyone who would be interested in becoming a trustee or would like any information regarding this. You can use the various means below to contact us.
